

Dorema Starcamp Tourer

The Starcamp Tourer full awning comes as standard with a 25mm steel frame but you have the option to upgrade to either an Aluminium EasyGrip frame or a Fibre Tech plus frame which helps to reduce the weight of the awning.

Each of the side panels are fitted with a door and can be fully zipped out and replaced with the optional tall annex. This is a great way to create more space for storage or with the use of the inner tent, an extra sleeping accommodation for guests.

Depth: 240cm

Roof material: TenCate Coated polyester

Wall material: Lightweight Coated polyester

Front panels: Both panels can be rolled down or zipped out

Side panels: Both panels are fitted with a door and can be zipped out
